Work Experience

A Class Formwork / Formwork Labourer

JAN 2020 – MAY 2020, PHILIPPINES

After I went to Philippines for new year, I had to find new formwork and A class form took me on for this last month, this work has been all formwork and has advanced my tool skills and knowledge more. Basically, all responsibilities are the same as my last two formwork jobs which has gained me more experience in this field for future projects.

Rocca Formwork & Concreting / Formwork Labourer

SEP 2019 – DEC 2019, AUSTRALIA

At Rocca I carried on from where I left off at Fortis and having the experience from that job made me slide straight into work, although Rocca was a smaller company and didn't do as big of jobs as my previous formwork employer it still had the same job role as for as the formwork side. I got to learn new skills in concreting because I was new to this work and duties were levelling ground from soil, stone, steel works, tying wire and then finally the concrete would be poured and finished.

Fragile Removals / Foreman

APR 2019 – SEP 2019, AUSTRALIA

After working for Fortis doing formwork I was unable to find another site for formwork or construction in general this resulted in me getting a job at Fragile. My day to day duties are to go all over Victoria moving anything from furniture to pianos for customers that are either moving house or a lot of work comes from insurance company's. The job responsibilities are different each day where I go with a truck and a team to different sites lifting heavy items safely and making sure not to damage anything to and from locations. This job shows I can work unsupervised out in areas around Melbourne taking responsibility for full job contracts.

Fortis Construction / Formwork Labourer

JAN 2019 – APR 2019, AUSTRALIA

Since working construction in Australia for nearly a year I have picked up different skills from different jobs and I was fortunate to get work as a formwork labourer this has been a temporary contract on one site. The company and workers have taught me a lot in a short 4 month period, I have the experience and would like to carry on as a form worker with my goal being to get a sponsorship and to stay in Australia. My main duties at this job was mostly all framing and set up on site, back propping, assisting carpenters to finish jobs at a good work rate. Have worked all different hours and can do full days of formwork, looking for a company to give me another chance to show I am a hard worker. I have tool belt and basic tools ready for the next job.

Education

University of Sunderland / BSc.

(Hons) Computer Systems Eng.

SEP 2022 – PRESENT, SUNDERLAND, UK

Studied hard to be recognized in the UK industry and to make a difference.

Astley Community High School /

BTEC Lvl 2 & 3
